

# Slingshot Aerospace Space Domain Awareness Lacks Multi-Medium

by [Nick Clark](#) | Published April 25, 2026

## Slingshot Reality

Slingshot operates SDA platform integrating optical telescope networks, RF observations, and emerging cross-domain space awareness.

## Multi-Medium Substrate

Slingshot's SDA observations integrate as credentialed modality; cross-modality composition produces multi-medium space awareness.

## Slingshot Position

Slingshot gains multi-medium composition substrate above SDA-specific products.
