

Trimble Survey Markers Lack Credentialed-RFID Integration

by [Nick Clark](#) | Published April 25, 2026

Trimble Survey Markers

Trimble operates surveying-monument products and GIS-marker products at substantial deployment scale. Technical execution is mature for surveying use case.

Credentialed-RFID Integration

Survey monuments integrating credentialed RFID gain dual-use AV-positioning value; existing Trimble customer base gains expanded application reach.

Trimble Position

Trimble gains credentialed-RFID product roadmap composing surveying use case with emerging AV-positioning.
