

Decawave/Qorvo UWB Lacks Architectural Cooperative Substrate

by [Nick Clark](#) | Published April 25, 2026

Decawave/Qorvo Reality

Decawave (now Qorvo) operates UWB-IC products deployed across automotive digital-key, indoor positioning, asset tracking. Technical execution at IC scale is mature.

Cooperative Substrate

UWB ICs contribute precise cooperative-ranging modality; architectural composition adds cross-modality resilience and audit-grade lineage.

Qorvo Position

Qorvo gains UWB-positioning architectural composition supporting emerging applications.
