

# Meinberg NTP Servers Lack Master-Less Consensus

by [Nick Clark](#) | Published April 25, 2026

## Meinberg Reality

Meinberg operates NTP and PTP server products deployed across enterprise, broadcast, financial, and emerging customer segments.

## Master-Less Composition

Meinberg hardware contributes as credentialed time observations; master-less consensus operates above master-election architecture.

## Meinberg Position

Meinberg gains structural-resilience timing substrate.
