

SAP S/4HANA Supply Chain Lacks N-Party Coordination Substrate

by [Nick Clark](#) | Published April 25, 2026

SAP Reality

SAP S/4HANA operates as the dominant commercial ERP platform deployed across global enterprises with substantial supply-chain integration.

Multi-Party Substrate

Multi-tier supply-chain coordination operates through architectural multi-party primitives; cross-ERP operations admit through declared federation.

SAP Position

SAP gains cross-ERP coordination substrate.
