

Agility Robotics Digit Humanoid

by [Nick Clark](#) | Published April 25, 2026

Digit Reality

Agility Robotics operates Digit bipedal humanoid with substantial commercial deployment beginning with GXO Logistics warehouses and emerging customer-base expansion.

Operator-Intent Substrate

Operator intent (facility manager, customer organization) admits through credentialed declarations; emerging cross-customer operations admit through declared federation.

Agility Position

Agility gains architectural substrate aligned with emerging humanoid-deployment regulation.
