

# Figure Humanoid Robotics

by [Nick Clark](#) | Published April 25, 2026

## Figure Reality

Figure operates Figure 02 humanoid robotics platform with BMW manufacturing deployment and emerging commercial customer engagement.

## Emerging Industrial Deployment

Industrial-deployment humanoid operations face emerging worker-safety oversight and emerging facility-operator authority composition requirements.

## Operator-Intent Substrate

Operator intent (facility manager, OEM customer) admits through credentialed declarations; composite admissibility supports multi-authority operations.

## Figure Position

Figure gains architectural substrate for emerging industrial humanoid deployment.
