

# Northrop Grumman ABMS and JADC2 Programs

by [Nick Clark](#) | Published April 25, 2026

## Northrop Reality

Northrop programs span ABMS, B-21 sensing fusion, IBCS, classified work. Cross-program composition is implementation-by-implementation.

## Mesh Substrate

Programs contribute credentialed observations; cross-service and cross-coalition operations admit through declared federation.

## Competitive Position

Northrop gains cross-program architectural alignment.
