

Tempus AI Medical Intelligence

by [Nick Clark](#) | Published April 25, 2026

Tempus Reality

Tempus AI operates precision-medicine platform integrating molecular sequencing, clinical data, and emerging AI-augmented care across oncology, neuropsychiatry, cardiology, and emerging therapeutic areas.

Training-Governance Substrate

Tempus training operations operate as credentialed observations; per-example provenance supports FDA-relevant training audit; cross-customer composition operates through declared federation.

Tempus Position

Tempus gains FDA-aligned architectural training substrate.
